# HOW AND WHERE CAN YOU USE YOUR CERTIFICATION MARKS?

Your certification demonstrates your use of management systems: it does not certify attributes of a specific product. For this reason, you must take care in your use of certification marks, and never use a mark in a misleading way that suggests product or service certification.

➤ This table summarizes the permitted uses of Bureau Veritas certification marks.

# PRACTICAL GUIDELINES

## FOR USING THE CERTIFICATION MARK

### COLORS

#### ORIGINAL COLOR

The Bureau Veritas Certification mark is printed in two colors:

■ Pantone 404 C grey ■ Pantone 200 C red

#### BLACK AND WHITE

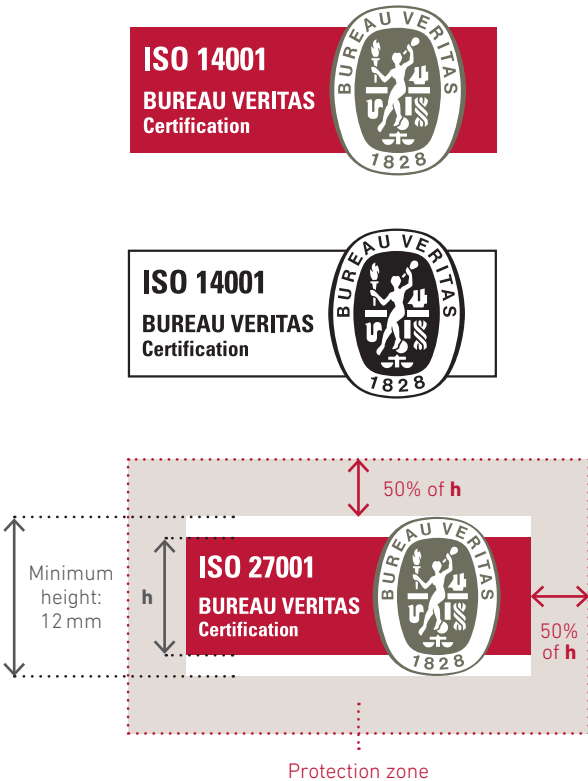

### DIMENSIONS

#### SIZE

The minimum height of the logo is 12 mm.

#### PROTECTION ZONE

To maintain the visual integrity of the logo, a minimum space (protection zone) equivalent to 50% of the height of the red block in the logo (**h**) must be respected.

### WHAT INFORMATION IS SHOWN?

The certification mark is adapted to show the standard to which you are certified (i.e. ISO 9001, ISO 14001). This is the ONLY part of the certification mark which is modifiable.

The certification mark can be used with or without reference to your certificate number (i.e. the number that appears on your Bureau Veritas certificate that uniquely references your organization).

#### FOR A MULTIPLE CERTIFICATION

# DIGITAL COMMUNICATION DO'S AND DON'TS

Digital communication presents its own set of challenges. We provide additional rules and guidelines to help you get it right.

### USING THE CERTIFICATION MARK ON YOUR WEBSITE

Remember: your certification mark covers your management system, not your products. You may show a certification mark on a website page that shows a product manufactured at a certified site, however you may be required to add a product statement. For web pages showing multiple products, you must take care that ALL products shown on the page are manufactured by sites certified to your management system.

Responsive websites rearrange content on a page to aid readability. You must ensure that the responsive version of your website:

- ✓ Does not separate the logo from the product statement
- ✗ Ensures the certification mark retains its minimum height

### REFERENCING YOUR BUREAU VERITAS CERTIFICATION ON SOCIAL MEDIA

Social media posts often need to be short – but you still need to avoid being misleading. When talking about your certification from Bureau Veritas, you must always refer to the specific management system standard and be precise:

- ✓ Our environmental management system is certified to ISO 14001 by Bureau Veritas
- ✗ Bureau Veritas has given our products the green stamp of approval!

If your certification is withdrawn or terminated, you must discontinue use of all advertising material that includes a reference to Bureau Veritas Certification. Correct use of the certification mark is a contractual obligation and may be monitored during audits.
