

CQI-IRCA Certified PR373: ISMS ISO/IEC 27001:2022 Lead Auditor Training Course

BENEFITS

On successfully completing the course, students will be able to :

- *Audit as per the requirements of ISO/IEC 27001:2022 standard*
- *Understand key elements of ISO 19011 and ISO/IEC 17021 Standards*
- *Understand key information security issues*
- *Plan an audit against a set of audit criteria*
- *Successfully execute an Information Security Management system audit*
- *Create clear, concise and relevant audit reports*
- *Communicate the audit findings to a client*

The course uses a mixture of taught sessions, interactive group discussions, exercises, continuous assessment and examination to achieve its aims. The practical exercises are based upon a fictional company. However, the procedures, work instructions and data are typical and could relate to many different enterprises equally. The practical exercises have been carefully designed to focus upon issues that commonly arise during Information Security Management system audits.

PRE-REQUISITES

Delegates are expected to have prior knowledge of the following

- **Management system :**
 - Understand the Plan-Do-Check-Act (PDCA) cycle
- **Information Security Management :**
 - Knowledge of the following information security management principles and concepts:
 - awareness of the need for information security;
 - the assignment of responsibility for information security;
 - incorporating management commitment and the interests of stakeholders;
 - enhancing societal values;
 - using the results of risk assessments to determine appropriate controls to reach acceptable levels of risk;
 - incorporating security as an essential element of information networks and systems;
 - the active prevention and detection of information security incidents;
 - ensuring a comprehensive approach to information security management;
 - continual reassessment of information security and making of modifications as appropriate.
- **ISO/IEC 27001**
 - Knowledge of the requirements of ISO/IEC 27001 (with ISO/IEC 27002) and the commonly used information security management terms and definitions, as given in ISO/IEC 27000, which may be gained by completing an CQI-IRCA certified ISMS Foundation Training course or equivalent.

COURSE VENUE

Courses are held at various training centres but alternatively can be held at your premises and tailored for your particular needs. For tailored courses, the numbers will be dependent on facilities available. Please contact your local Bureau Veritas Certification office for details

CONTENTS

- *Information Security Management System overview*
- *Auditing Information Security Management System against requirements of ISO/IEC 27001:2022*
- *Audit techniques*
- *Accreditation issues*
- *Auditor competence*
